A completely revolutionary stuffing machine engineered around performance, showmanship and experience.
What is the **vortex series**?

The **vortex series** is a revolutionary stuffing machine engineered and specific to The Bear Factory. The vortex technology utilizes air compression and a traditional mulching system that provides more efficient poly fiber distribution. This combination creates an enhanced stuffing capability focused around maximal stuffing yield per load.
1. Vertical Mulching System
Vertical propellars provide a more efficient mulching system that also promotes a reduced amount of wasted fiber left over at the bottom of the hopper.

2. Chamber Pressurizing
Vortex machines have vacuum sealed chambers that pressurize to push polyfiber out of the hopper. Traditional machines rely on gravity to feed the delivery system. This creates only a 10% fiber waste remaining in the chamber opposed to the traditional 20-25%.

3. Air System
Because the chamber requires air to be shot into the hopper to pressurize, the air serves as a second mulching method that fluffs your fiber as your stuff.

4. Stuffing Experience
As the fiber is pushed out of the hopper with the pressurized chamber, the fiber is then pushed out of the machine nozzle. This system creates reduced stuffing time and requires less manual work when working the plush skin.

How Does it work?
Most stuffing machines rely on gravity to allow the fiber to be processed into the air filtration system. The Vortex Series differentiates itself because of how our machines pressurize the polyfiber chamber to efficiently process and deliver your fiber.

The vortex mini is an excellent entry level machine for anyone looking to break into the plush event market. This portable yet effective unit stuffs up to 5 animals and creates a great experience for your customers.

**Unit Highlights:**
- Vortex Spin Cycle
- 2-5 16” Stuffed Plush Capacity
- Smart Key Power Switch
- Hand Button Power
- Removable Foot Pedal
- 1 Year Limited Warranty
- No Assembly Required

The vortex ONE is a redefined stuffing machine of its class. With 1.5x the poly fiber capacity, enhanced portability, and interior lights that catch attention, this is a machine that leads the pack.

**Unit Highlights:**
- Vortex Spin Cycle
- 20-25 16” Stuffed Plush Capacity
- Interior Lights
- Smart Key Power Switch
- Foot Pedal and Hand Button Power
- Removable Foot Pedal
- Caster Wheels and Handle for Portability
- 1 Year Limited Warranty
- No Assembly Required

The **vortex PRO** is a completely unique all in one high capacity stuffing machine. This machine offers a bluetooth speaker, 2x poly fiber capacity from it’s competitors and a no hassle all in one design with a sleek finish. The is perfect for large events and catching the eyes of current and potential customers.

**Unit Highlights:**
- Vortex Spin Cycle  
- 32-36 16" Stuffed Plush Capacity  
- Interior Lights  
- Smart Key Power Switch  
- Foot Pedal and Hand Button Power  
- Removable Foot Pedal  
- Caster Wheels and Handle for Portability  
- 1 Year Limited Warranty

Vortex Exterior Light Kit

Vortex Mulching Bag

In a hurry at your event and don’t have the time to mulch your fiber? No worries! These bags carry a full Vortex ONE hopper full of fiber and make mulching fiber as easy as 1,2,3! All you have to do is put your fiber into your Vortex Machine, let it mulch for 5 minutes and then shoot the fiber from the machine (as though you’re stuffing an animal) into your bag and you’re on your way!

$10  Click to Purchase Now

Vortex Mulching Bag

Vortex ONE Stand

Increase the height of your vortex ONE with this portable stand. Locking commercial caster wheels makes it a breeze to transport and the stand has a locking lower compartment with a removable shelf. Conveniently store extra fiber, inventory or valuables while on the go.
