The Bear factory PRESENTS

A completely revolutionary stuffing machine engineered for

What is the

The **vortex series** is a revolutionary stuffing machine engineered by The Bear Factory. Our vortex technology utilizes air compression and a traditional mulching system that provides more efficient poly fiber distribution. This combination creates an enhanced stuffing capability focused around maximal stuffing yield per load and power output.

vortex ONE

vortex PRO

1. Vertical Mulching System

Vertical propellars provide a more efficient mulching system that also promotes a reduced amount of wasted fiber left over at the bottom of the hopper.

z. Chamber Pressurizing

Vortex machines have vaccume sealed chambers that pressurize to push polyfiber out of the hopper. Traditional machines rely on gravity to feed the delivery system. This creates less then 5% fiber waste remaining in the chamber opposed to the traditional 25-35%.

3. Air System

Because the chamber requies air to be shot into the hopper to pressurize, the air serves as a second mulching method that fluffs your fiber as your stuff.

4. STuffing Experience

As the fiber is pushed out of the hopper with the pressuized chamber, the fiber is then pushed out of the machine nozzle. This system creates reduced stuffing time and requires less manual work when working the plush skin.

How Does it work?

Most stuffing machines rely on gravity to allow the fiber to be processed into the air filtration system. The Vortex Series differentiates itself because of how our machines pressurize the polyfiber chamber to efficiently process and deliver your fiber with power.

The Bear Factory Vortex mini

\$1200

The vortex mini is an excellent entry level machine for anyone looking to break into the plush event market. This portable yet effective unit stuffs up to 5 animals and creates a great experience for your customers.

Unit Highlights:

- Vortex Spin Cycle
- 2-5 16" Stuffed Plush Capacity
- Smart Key Power Switch
- Hand Button Power
- Removable Foot Pedal
- 1 Year Limited Warranty
- No Assembly Required

Removable Power Cord

Removable Pedal -

vortex mini

Specifications:

- 110v Outlet
- 21" Depth (+5.5" with Nozzle)
- 14" Width
- 15" Height
- 15 lbs Unfilled Weight
- Tangential 2-Stage Motor
- Solid State Electronic System
- Commercial Use Machine

Safety Features:

• Low Voltage Switches

The Bear Factory Vortex ONE starting at

vortex services

The vortex ONE is a redefined stuffing machine of it's class. With 1.5x the poly fiber capacity, enhanced portability, and interior lights that catch attention, this is a machine that leads the pack.

Unit Highlights:

- Vortex Spin Cycle
- 20-25 16" Stuffed Plush Capacity
- Interior Lights
- Smart Key Power Switch
- Foot Pedal and Hand Button Power
- Removable Foot Pedal
- Caster Wheels and Handle for Portability
- 1 Year Limited Warranty
- No Assembly Required

The Bear Factory Vortex ONE

Specifications:

- 110v Outlet / 12 Amps
- 24" Depth (+5.5" with Nozzle)
- 22.5" Width
- 40.5" Height
- 70 lbs Unfilled Weight
- Tangential 2-Stage Motor
- Solid State Electronic System
- Commercial Use Machine

Safety Features:

- Hopper Door Stop Sensor
- Low Voltage Switches

Additional Options:

- Removable Custom Banner Package
- Exterior Multi Color Lights Kit
- Optional Base for Added Height and Storage

See Accessories Page 12 for more information

vortex PRO

starting at

The vortex PRO is a completely unique all in one high capacity stuffing machine. This machine offers a bluetooh speaker, 2x poly fiber capacity from it's competitors and a no hassle all in one design with a sleek finish. The is perfect for large events and catching the eyes of current and potential customers.

Unit Highlights:

- Vortex Spin Cycle
- 32-36 16" Stuffed Plush Capacity
- Interior Lights
- Smart Key Power Switch
- Foot Pedal and Hand Button Power
- Removable Foot Pedal
- Caster Wheels and Handle for Portability
- 1 Year Limited Warranty

vortex PRO

Specifications:

- 110v Outlet / 12 Amps
- 26" Depth (+6" with Nozzle)
- 24" Width
- 64.5" Height
- 90 lbs Unfilled Weight
- Tangential 2-Stage Motor
- Solid State Electronic System
- Commercial Use Machine

Safety Features:

- Hopper Door Stop Sensor
- Low Voltage Switches

Additional Options:

- Removable Custom Banner Package
- Exterior Multi Color Lights

What's inside:

vortex accesories

vortex Light Kit

Vortex Exterior Light Kit is compatible with both the Vortex One and Vortex Pro stuffing machines. This LED light kit comes with a portable remote that gives you the ability to switch between single and multi color settings.

Note: Light Kit must be purchased at the time of your stuffing machine order as your machine will be outfitted with the light kit during assembly.

\$175

vortex Mulching Bag

In a hurry at your event and don't have the time to mulch your fiber? No worries! These bags carry a full Vortex ONE hopper full of fiber and make mulching fiber as easy as 1,2,3! All you have to do is put your fiber into your Vortex Machine, let it mulch for 5 minutes and them shoot the fiber from the machine (as though you're stuffing an animal) into your bag and you're on your way!

\$10

vortex ONE Stand

Increase the height of your vortex ONE with this portable stand. Locking commercial caster wheels makes it a breeze to transport and the stand has a locking lower compartment with a removable shelf. Convientently store extra fiber, inventory or valuables while on the go.

\$600

vortex accesories

vortex Custom Banner Kit

Customize your Vortex machine with a customized banner kit. Incorporate your company's branding to make more of an impression and forcast your contact information.

\$125 Vortex PRO \$75 Vortex ONE

Please Inquire for defials

vortex Hurricane Mulcher

Increase your poly-fiber yield by 40% with the vortex Hurricane Mulcher! This user friendly, compact unit can increase the stuffing yield of a 25 lbs of fiber from 40-50 16" plush animals to 75-80 depending on the style.

Increase your bottom line and decrease your fiber mulching process by incorporating the Hurricane Mulcher into your business operations!

\$650

vortex Mulcher Adapter

Streamline your mulching process by incorporating the Vortex Mulcher Attachment. This accessory connects right from your Hurricane Mulcher directly to your Vortex ONE or PRO hopper. No fiber flying anywhere except fro where it needs to go.

Connect the adapter to your mulcher, insert into your hopper, and you're off to mulching!
